

Mfg. Of : Industrial Rubber Rollers
P.u. Rollers And Moulded Parts

ABOUT US

ACCURATE RUB TECH is a professionally managed manufacturer all kind of Industrial Rubber & Ebonite Roller and Moulded Rubber Part. We have well trained staff so that our roller is without any defect. The roller are dimensionally stable so that they maintain their smooth finish surface even after long use.

ACCURATE RUB TECH has research and development facilities which empowers them to design and manufacture rollers as per the customers requirement & specifications. They are made of different types of polymers for best anti abrasion and anti corrosion property under strict supervision of well experienced consultants to get trouble free life.

ACCURATE RUB TECH lays a lot of emphasis on Quality. Rollers are checked throughly during and after they are processed. It is ensured that the rollers are zero defect right from the first stage to the last stage in their manufacturing. The final inspection is carried out by technically sound and experienced engineers.

ACCURATE RUB TECH offers quality products and timely delivery a real cost effective solution to your all kind of rubber roller requirements.

TYPES OF POLYMERS

- | | | |
|------------|----------------|------------|
| • Neoprene | • Polyurethane | • Hypalone |
| • Nitrile | • EPDM | • Viton |
| • Silicone | • Natural | • Butyl |

CAPACITY : Diameter up to 750mm, Length up to 6000mm including journals, Hardness from 20 Shore A to 100 Shore A and 70 Shore D. Run out (eccentricity) of rubber surface 0.02-0.05 mm depending on hardness and type of rubber.

MACHINERY : Rubber Processing (Bale cutting, Automatic Batch Weighing System, Dispersion Kneader Mixing mill) Roll Covering (Automatic Strip Binding), Vulcanising, Grinding etc.

TESTING : Surface Plate of 2 m x 1 m for testing (eccentricity, parallelism), Dimensional accuracy Vernier (3mtr., 1mtr., 300mm) Micrometer (0-25mm, 25-50mm, 50-100mm, 100-400mm with 0.001 resolution), Dial Guages, Hardness tester etc. Testing of compounds for rheological properties, compression set and abrasion are done at reputed laboratories.

FLEXO & GRAVURE RUBBER ROLLER

FLEXO APPLICATIONS :

- ◆ Hi Speed Flexo graphic Machine
- ◆ VMCH Coating Machine
- ◆ UV Coating Machine
- ◆ Epoxy Coating Machine
- ◆ Inking Rubber Rollers

GRAVURE APPLICATIONS :

- ◆ Hi Speed Gravure graphic Machine
- ◆ Lamination Machine
- ◆ Nip Rubber Rollers

GROOVE ROLLER

TYPES OF GROOVES :

- ◆ Vertical Groove
- ◆ Helical Groove
- ◆ Straight Groove
- ◆ Spiral Groove
- ◆ Diamond cut Groove

APPLICATIONS :

- ◆ Cutting Sealing Machine
- ◆ Pouch Making Machine
- ◆ Winding & Unwinding Machine
- ◆ Extrusion Film Plant
- ◆ Lamination Machine

Application :

- ◆ Corona Treatment Machine
- ◆ Extrusion coating Machine
- ◆ Thermal Lamination Machine
- ◆ Heat & Press Lamination Machine
- ◆ Cutting Sealing Machine
- ◆ Holography Machine
- ◆ Foil Processing Machine
- ◆ Other Coating Lamination Machine

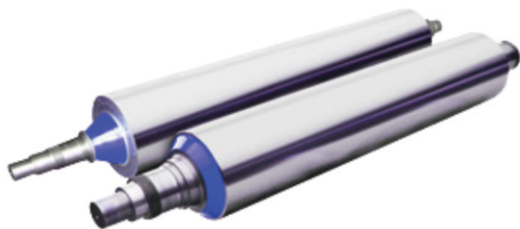

SILICONE RUBBER ROLLER

PU ROLLERS

High Quality Polyurethane rollers which are manufactured as per customer requirement. These are precision grind to smooth finish and known for its resistance to abrasion & corrosion. Polyurethane Rollers offer high impact resistance, flexibility elastic memory, noise reduction, and are resistance to oil, ozone low temperatures, radiation and corrosion.

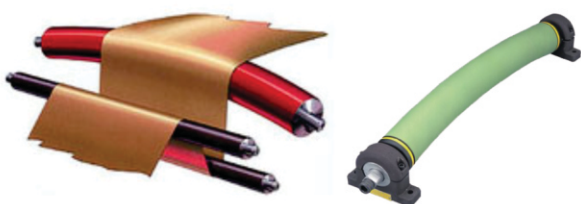

HARD CHROME PLATING ROLLER

INDUSTRIAL BRUSH ROLLERS

BOW ROLLER

HEATING & CHILLED ROLLER

SUPPLY IN FOLLOWING INDUSTRIES

- Plastics Industries
- Textile Industries
- Paper Industries
- Food Industries
- Lamination Industries
- Packaging Industries
- Plywood Industries
- Chemical Industries
- Converting Industries
- Pharma Industries
- Cement Industries
- Steel Industries

RANGE OF PRODUCTS

- Silicon Rubber Roller
- Ebonite Rollers
- Rubber Roller
- Rubber Expander - Bow Roll
- Polyurethane Rollers (PU Roll)
- Conveyor Pully
- Hard Chrome Plating Roller
- Solvent Less Lamination Roller
- Checked Rollers (Diamond Groove)
- Flexo & Gravure Roller
- Air Shaft / Safety Chuck
- Rubber & Ebonite Lining
- Inflatable rubber tube (Air Bag)
- Polyurethane (P.U.) Products
- Cooling Roller
- Lamination Roll
- Rubber Sleeve
- Spiral Groove Rollers
- Scroll Rollers
- Rubber Moulded Articles
- Rubber Air Tube (For Air Shaft)

Plastic Printing Packaging

Rotogravure Printing Roller

Ebonite Roller

Precision Rubber Roller

Polyurethane Products

Air Shaft / Safety Chucks

Mfg. Of : Industrial Rubber Rollers
P.u. Rollers And Moulded Parts

Plot No. B/36-37, Swagat Industrial Park-3, Nr. kuha Village,
Indore Highway, Ahmedabad-382433, Gujarat, INDIA.
